

CRUNCH & PUNCH

For the die-hard fans of our Crunchbox and Punchbox pickups, Rio Grande is eager to announce an open coil version of these ultra powerful Humbuckers.

Users have loved our 12 Mega-Polepiece pickups for their sheer brute force, no holds barred attitude.

Now there is even more to love since we have removed the covers to let even more of that massive tone shine thru the mix!!

Available in Double White, Double Black, Creme Zebra, and White Zebra. Of course we still offer our covered versions in Black, White, Creme, Nickel, Toasted Nickel, and Diamond Plate!

CRUNCH BOX

With 12 Mega-Polepieces for fine tuning string balance, this pickup redefines pure power, destruction, & has a flatout "Take No Prisoners" attitude.

**Remember, if you can't budge it, get a bigger hammer!
Recommended for bridge position, 4-conductor cable and "F" spaced.**

PUNCH BOX

Like it's big brother (Crunchbox), the Punchbox also has 12 Mega-Polepieces for fine tuning string balance.

This pickup however has a bit less output for achieving perfect switching balance when combined with the Crunchbox in the bridge position.

**The Punchbox is recommended for the neck position.
The pickup is 4-conductor and "F" spaced.**

In a 3 X Humbucking configuration, use a Punchbox for neck and middle positions, and a Crunchbox in the bridge.....
